# Press Release

Drive Source International Inc. Purchases TASC<sup>®</sup>, HEENAN<sup>®</sup> and NECO<sup>®</sup> Product Lines In Norwich, England To Expand Its Global Scope Of Quality Drive And Motor Products.

***This allows DSI/Dynamatic<sup>®</sup> to continue to be the “World’s Leader In Eddy Current Drives, Brakes & Controls”.***

Norwich, UK, March 10, 2008: Drive Source International, Inc. announces that it has purchased the TASC<sup>®</sup> Eddy Current, HEENAN<sup>®</sup> Eddy Current and NECO<sup>®</sup> Specialty Motor and Geared Motor product lines from ATB Laurence Scott Ltd. of Norwich England.

“We are extremely proud to announce the acquisition of these three quality products. By adding these industry stalwarts to our family of simple, reliable Eddy Current Drives, Brakes and Controls we have immediately increased our ability to support the power transmission market on a world wide level”. *David L. Fenton, President and CEO.*

In the interim, manufacturing will occur in the United Kingdom as well as the United States. Both locations will work in unison to ensure that orders are handled in a timely and efficient manner during the transition period. The complete product line will continue to be supported in the UK, Europe and around the world. DSI/Dynamatic<sup>®</sup> will also continue to support existing global agents and authorized service centers.

With over 75 Years of Eddy Current Drive, Brake and Control Manufacturing and Application Experience, combining our legacy products with new advancements in digital controls, Drive Source International (formerly Eaton Dynamatic<sup>®</sup>) is recognized globally as the industry leader in alternative drive technology.

FOR IMMEDIATE RELEASE, March, 2008

*Application Engineering • Quality Products • Total Solution*
